Subject: Virtual Fishing accessible through the portal or your cell phone – NO NEED TO PRESENT YOURSELF for FISHING !

In the wake of the past few days, and so as to minimize the risks related to close contact in common areas, the MEA has decided to put at your disposal a fast way to submit your availabilities for fishing.

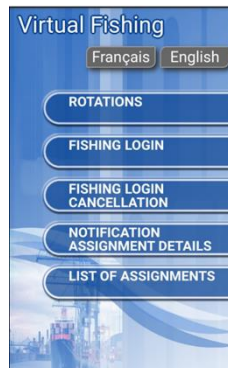

As of today, you will have the possibility to access the application « Virtual Fishing » on your cell phone.

How it works :

- Access the MEA website at www.mea.ca
- Enter your login information
 - If you do not know your login and password, contact the Dispatch Centre at 514-866-1411
 - Once you are logged in, click on « My Fishing» in the top menu.

- In this section, you will see some of the options currently available at the interactive guichet.

Once you are assigned, present yourself as soon as possible.

If you have any questions, contact the Dispatch Centre at 514-866-1411.
