

# MARITIME EMPLOYERS ASSOCIATION ASSOCIATION DES EMPLOYEURS MARITIMES

## A PORT EMPLOYEE IS TESTED POSITIVE FOR COVID-19

Montréal, April 3, 2020

The Maritime Employers Association received confirmation, by the end of the afternoon, that a port employee was tested positive for COVID-19. The employee had taken leave from work to self-isolate; and the last day of work was Sunday, March 29<sup>th</sup>.

We are following the steps defined in the contingency handling process related to the Covid-19 established with both unions.

We are in contact with the Public Health Agency and are following their recommendations. We will continue the cleaning and disinfection process; and have advised the persons that could have come in contact with that employee.

The Maritime Employers Association
